[Case report of a rare condition of thunderclap headache](#)

Zaw Thant Lwin*, Zen Yong

Published: 12 June 2020 | Pages: 001-004

DOI: <https://www.doi.org/10.46766/thegms.neuro.20060201>

This is a report to create awareness among clinicians on a very rare condition of thunderclap headache. A 51-year-old lady presented with recurrent thunderclap headaches over the preceding 3 days. This presentation sounds like Subarachnoid haemorrhage initially, but further investigation revealed reversible cerebral vasoconstriction syndrome.
